Dear Mate,

Have you been struggling to make money online to no avail? Then this site is for you!!! Read on as I am about to reveal to you how you can consistently make guaranteed income within the next 72 hours if you take action now.

I have been making money online, having been in business over 5 years after struggling with what never worked until I cracked the real working system that I concentrate on using.

***Let me be blunt here:*** There are just too few sure guaranteed

ways to make money online and its either you are following it or you are wasting your time, effort and money.

The worst ways and advice you are given to make money online and you have failed woefully are:

**1. Gambling:** People have choices but one of the unsure ways of making money online is Gambling. This include Betting (Including Football), Forex Betting and fixed odd, These are just ways many have wasted their money, time and effort instead of concentrating on meaningful businesses that guarantee returns online. There is no future in gambling.

**2. No work To Be Done Programs;** Yes, people run adverts all over the places and tell you that you do not need to do any work to make money from their programs. Nice idea, but as far as I am concerned, having been into this business full time, technically and non technically, there is no plug and play money making program online with no effort. Therefore you should run far away from such programs.

**3. HYIP:** *High Yield Income Programs* popularly called HYIP is one dangerous and scam related program online. **People do it and make money. But like any gambling program, they also loose it.** While starting online business, I have ventured into this kind of program but discovered there is no future in it. I have seen my friends loose over \$2000 in a matter of minutes, and even days. These programs, mostly created by scam artist promise you will make 100% of your investment daily paid to

## **What then are the right ways to make money online?**

There are several sure ways to make money online and let us take them one after the other:

1. Create a Product and Sell: The best way to make it big online is creating and selling your own products. It is a residual or passive income.

2. Become an Affiliate: Affiliate Marketing involves your promoting another persons product on commission basis. This is also a great way to make money online if you specialize here. Some of the easiest affiliate programs you can start today are [Google Adsense](#), Clickbank and Amazon. With the right promotion, you can make money from these programs and best of all, they are free to start.

3. Write and Sell Articles: You can write and sell articles at article sites and make money online.

4. Blogging: Of a truth, all programs online are tied to this system. Blogging is just an art of writing contents around a

niche or product or services. Unfortunately, most people do not know how it works. You can blog full or part time.

All the above are great ways of making money online. But the greatest challenges you may be having could range from *how to set up the system to deliver the money, how to create a product and how to add payment or order button code to that of receiving your money.*

No doubt that when you see the task involved above, you give up on the right and sure ways of making money online consistently.
